

## Exhibit 2

Concerning when the Court asked to hear from SAAA in December 2015 and the submission of this letter in 2020 I discovered that the Court had asked to hear from SAAA in March 2017. I have worked on this letter as time permitted since the latter part of 2017. Since 2017 I have worked full/part time in menial jobs. I also spent much time seeking employment as a software developer and took a computer class in 2017. In preparing this letter I went thru many water department related documents, read many Voice of Detroit articles, and read many court case related documents at the federal courthouse in Detroit.
